CRATE – The name says it all and so much more: CRATE follows in the footsteps of the legendary BEER BOX. While a beer crate was the source of inspiration for its little sister, CRATE resembles a wine case or a fruit box. We traded the commonly used wood for highquality Corten steel. Thus a multi-functional product was born which serves many purposes: firewood storage, wine case, beer crate, fruit box, but also fire basket, stool and barbecue.

How about a spontaneous trip to the lake? CRATE is your perfect companion! Take along your firewood for an atmospheric campfire or a small barbecue as well as your drinks in this sturdy box.
