

# TOOLS

DESIGN PLUS  
Winner 2016

**STEAKTOOLS** – tools meeting the demands of a perfect piece of meat. Due to the sharp blade, the meat fibres are not torn apart, but precisely cut. The meat thus remains juicy and aromatic. Forged in one solid piece, the brushed, silk-matt Stainless Steel lies perfectly balanced in your hand. Non-corrosive, dishwasher-safe and dimensionally stable, the höfats steaktools are indestructible and guarantee long-standing joy in good meat. Delivered in a high-quality wooden box, höfats steaktools are the perfect present for every meat lover and for all appreciative of good food. By the way – the höfats steaktools also perform extremely well with pizza.

**TONGS** – Due to their asymmetric shape, the tongs lie ergonomically and safely in your hand. Moreover, the slightly tilted edges enable to cautiously handle sensitive grillables. Breakouts at the ends provide for grip and clear view – in a way, they make the tongs transparent at the center of events. The tongs are thus the perfect tool both for small shrimps and T-bone steaks. And if that wasn't enough, the tongs place the cooking grid over the embers or lift the hot grid out of the grill.

**APRON** – The ingenious höfats apron turns you and your grilling cooking skills into a successful "rope team". The robust and easy-care material suits you down to the ground. Due to the continuous rope stretching from the neck over the sides to the hip, the apron can be adjusted to the body size with a flick of the wrist. Thus it fits perfectly and provides the maximum wearing comfort. The decently integrated pocket as well as the towel belt will thrill you. The belt is already adequately equipped with a high-quality towel made of 100% linen going along with the höfats apron.

**BBQ STARTER** – höfats chimney starter can be used like a normal one, but also according to the höfats ignition principle. With the höfats ignition principle, the chimney starter does not have to be turned around, but only pulled upwards. There are no flying sparks or ashes. The höfats lighting solution is therefore much safer and comfortable compared to conventional chimney starters.

- extremely massive and perfectly balanced
- forged from a single piece
- extremely sharp blade with serrated edge
- satin-finished and brushed stainless steel
- high-quality packaging in a wooden box

4x Steakknife  
4x Steakfork

**GLOVES** – The robust höfats grilling gloves made of pure, extremely dense suede and Kevlar are hand-sewn and made for eternity. The gloves are highly heat-resistant, thus turning grilling into an absolutely safe pleasure. Smooth leather and a perfect fit make the gloves extremely handy. You will fall in love with the impeccably sewn and thus highly comfortable inner lining.

**PREMIUM FIREWOOD** – Our premium firewood is high-quality hardwood from Biomassehof Allgäu. Technical drying is used to achieve a quality that is almost free of weathering and a guaranteed water content of less than 20 percent. Smoke-free fire enjoyment with our fire baskets and perfect grilling over an open fire with a matching plancha.

**JOHNNY CATCH** – probably the world's most functional and minimalistic wall mounted bottle opener. Johnny Catch has a thin, sleek design and fits to the wall or mounting surface discretely. Johnny Catch magnet or with a cup captures bottle caps before they have a chance to fall on the floor! Johnny Catch is 100% Stainless Steel and doesn't need any screws or additional fixings. It is simply mounted on the wall by high quality double-faced tape that adheres to many surfaces, even uneven ones!

Johnny Catch is a must-have for everyone: from lemonade to craft beer lovers; whether it is placed in a bar or nightclub, domestic kitchen or man cave, just next to your barbecue or fridge, where there is a drink that needs uncapping, Johnny Catch will keep on catching... Cheers!

- extremely heat-resistant
- 100 % natural leather with Kevlar
- perfect wearing comfort, extreme grip
- pleasant lining
- 1 pair

- native hardwood from sustainable Bavarian forestry
- easy to light and smoke-free burning, thanks to max. 20 % residual moisture
- perfect size for your fireplace
- smaller and larger logs mixed

- wall mounted bottle opener with cup
- captures approx. 60 caps
- simple mounting without screws (instead with extra-strong adhesive tape, even sticking on rough surfaces)
- bottle opener made of brushed stainless steel
- cup designed in "soft touch" style
- wall mounted bottle opener with magnet
- very strong magnet, catches up to 20 caps
- simple mounting without screws (instead with extra-strong adhesive tape, even sticking on rough surfaces)
- brushed stainless steel
- extremely flat on the wall
